

Press Release Alpina

Thermenhotel Alpina ****, Bad Hofgastein

4-star Hotel Alpina in Bad Hofgastein is living proof that tradition, the enchantment of Austrian and family-style warmth stand right at the top of the personal wish-list of guests from around the world. Here, they discover an oasis of wellbeing in the heart of Gastein's mountain world, enjoy our sincere brand of hospitality and savor delectable dishes that do Austria's rich culinary tradition proud.

Hotel Alpina, a member of the Thermenhotels Gastein group and located not far from the town center of Bad Hofgastein, has been designed by its owners, the Czerny family, with love for every detail and a sense of absolute charm. Here, tradition isn't some empty catchphrase, you sense it everywhere. Native woods and perfectly matched colors radiate warmth and comfort. Wind down a wonderful day in the mountains of Gastein either in our "Fireside Room" or in the always-popular "Pine Room" – these are holidays for mind, body and soul! Gastein Valley is also a member of the Ski Amadé alliance, attracting guests with the broadest range of activities imaginable: Whether skiing or culture, mountain biking or hiking, Hotel Alpina always serves as your perfect base.

4-star Hotel Alpina offers 100 rooms with every convenience, along with magical views of Gastein's mountain world. Our hotel apartments vary in size, making them ideal for families. Self-catering is possible, of course, but by no means mandatory. If you prefer, you may wish to book the apartment to include Deluxe Half-Board at the Alpina. Something absolutely not to be missed. The breakfast buffet – nutritious, rich in vitamins, natural – with products from the region and local farms – will definitely energize you for all of those sporting activities you have planned. For hunger pangs between meals, we serve afternoon snacks. And come evening, our head chef looks forward to pampering you with his 4-course menu selection for dinner! We are always dedicated to offering locally sourced ingredients, prepared fresh according to classic Austrian recipes. An ideal opportunity to experience the culinary side of Gastein Valley, right here with us at Hotel Alpina.

As a member of Thermenhotels Gastein, we also boast our own wellness area, one that leaves nothing to be desired. The very positive, stimulating effects of the Gastein thermal water, which is naturally enriched with radon, can either be enjoyed warm at 33° C in our indoor pool (6 x 10 m) or refreshingly cold in our hydrotherapy spa. In addition, a sauna, steam bath, hot tubs and tanning studio promise a soothing, muscle-relaxing conclusion to a day filled with outdoor activities in the Gastein mountains. The treatments we offer in our spa department also draw upon the water and plants of Gastein Valley. For example, a massage with pine oil stimulates the metabolism and blood circulation, while a bath in lemon balm and other herbs fortifies you while helping you to shake off the stresses of daily life. The sun terrace and sunbathing areas also invite you to discover a sense of total peace, enjoy the view of Gastein's imposing mountain scenery, and dream about your next hike or skiing adventure.

At Hotel Alpina, charm and tradition meet wellness and so much more, for a holiday that is certain to be totally relaxing!
